institutions across India*

**Enlighten
MUN**

**MUN World India is a unique
enterprise with a simple
4 point mission:**

Honing Public Speaking
and MUN Skills

Developing Critical Skill
Sets and Abilities

Spreading National and
Global Awareness

Encouraging Ideation
and Proactivity

FEATURES OF PROGRAMME

Holistic Orientation to Life Skills
Developed Through MUNs

Personalized Focus on Participation of
Each Student

Training for All Major MUN
Procedures

Final Session Involves Full Fledged
MUN Simulation

Enlightening Students about the True Ethos of MUNs.....

Model United Nations (MUNs) conferences in today's times are arguably the most popular public speaking events and simulations that have taken the education world by storm. Especially in India, most institutions and parents are looking at ensuring that their children participate in them as a means of improving various abilities which will help them evolve as individuals. **Correct training for MUNs is essential towards ensuring effective participation in them.**

MUN World India's core team comprises of some of India's most established and distinguished MUN participants, chairpersons and trainers, **who have participated, won, judged, chaired as well as organized over 300 MUN conferences collectively, over a period of 10 years.**

According to MUN World India, the true spirit, approach and learning curve that students imbibe through participation in MUN conferences has been lost in this era of commercialization. **Another major reason due to which the objective of MUN participation is being unfulfilled in today's times, is the lack of correct orientation towards them. Unfortunately, MUN training in India simply implies training students in MUN procedures.** The truth though is that MUNs are simply a means for students to develop various soft skills that will greatly help them in the long term such as:

- **Interpersonal Skills and Communication**
- **Opinion Development, Expression and Appreciation**
- **Collaborative Problem Solving**
- **Negotiation Skills and Diplomacy**
- **Global and National Awareness**
- **Public Speaking Abilities**
- **Spontaneity and Quick Thinking**
- **Formal Paper Documentation**
- **Lobbying and Self Promotion**
- **The Art of Persuasion and Compromise**
- **Improved Stage Confidence**

Keeping this in mind, MUN World India conceptualized and developed the Enlighten MUN programme through extensive research, pilot tests and relevant modifications, over 5 years ago. The final result of the meticulous development process which took over 2 years, is a **refreshing concept** which is being used to revolutionize the perspective with which MUNs are seen by institutions across the country. **Enlighten MUN is the only programme of its kind which uses skill set and all-round development as a mode to help students master the art of participation in Model United Nations conferences.**

As a programme, Enlighten MUN is **comprehensively structured** and pays major emphasis on the **development of the soft skills mentioned above** among students, while also helping them master various MUN procedures and participation techniques. The skills and procedure students learn is put to test during the final session when they are made to participate in a full-fledged MUN simulation. **MUN World India has seen over 40000 students in over 108 different institutions across India reap the dividends of this programme.**

Programme Details

Enlighten MUN is generally conducted as a 3 day 18 hour programme (6 hours per day) followed by interventions which take place over the duration of the academic year. MUN World India generally conducts interventions 2 times (6 hours each) beyond the initial 3 day workshop which are updation sessions testing retention. We also offer fortnightly curriculums to institutions (if asked for) which ensure that Enlighten MUN's activities become continuous in nature. The details of the 3 day workshop and associated skills covered are as follows:

Day 1 - Major Focus on Soft Skill Development (6 hours)

- **Art of Introduction:** : Students are taught how to master their first impressions, 'Elevator Pitches' and ace their basic interpersonal skills. This is an ice-breaking session for all participants.
- **Opinion Development, Expression and Appreciation:** This confidence building session provides students an insight into various global issues of the past and present, based on which they are made to develop, express and appreciate varying opinions.
- **Group Discussion:** Model United Nations conferences in a way are simply a more refined form of group discussions. Mastering one's participation in them is the first step towards becoming great MUNers. They also play a huge role during college and further education as they form an integral part of job application processes.
- **The Method of Debating:** Students are taught the correct method of debating, approaching a motion, developing offensive and defensive argumentative strategies among other tips and tricks during this session.

Day 2 - Skill Set Development and MUN Procedure (6 hours)

- **Collaborative Problem Solving:** Students are taught the art of collaborative problem solving which forms the crux of MUNs, which are about understanding different points of view while reaching a solution for a particular global issue. They then participate in a case study activity.
- **Spontaneity and Quick Thinking:** The day starts off with students being taught how to improve their spontaneity. Most students suffer majorly from problems like hesitation, faltering and/or stuttering while speaking. This session addresses these problems.
- **MUN Procedural Training:** Students are acquainted with the nuances of various MUN procedures such as UNA/USA, HMUN and THIMUN procedure. All aspects of procedure such as points, motions and caucuses are comprehensively explained and taught. Students are also given an insight into the basic functioning of the United Nations.

Day 3 - Full Fledged MUN Simulation (6 hours)

The final day of Enlighten MUN is dedicated to conducting a complete simulation of an actual MUN conference. Students are given the agenda and their countries a day prior. Being provided with comprehensive study guides and other details, they come prepared to participate in a real time MUN with **General Speakers' Lists, Caucuses, Motions, Points, Working Papers and of course the most important part of formal documentation – draft resolutions.** They then participate in a case study activity, based on societal issues of importance.

Salient Features of Our Programme

- Only MUN Training Programme Focusing on Skill Set Development and Correct Orientation towards the Concept
- Small Batches with Personalized Attention and Extensive Individual Participation
- Workshops Conducted by the Most Competent Trainers in the Field
- Fully Certified MUN Programme Focusing on Holistic Student Development
- Doubt Solving and Assistance Facility for All Participating Students for 1 Year
- Personalized Student Reports and Feedback at the End of the Programme
- Flexibility of Programme with Respect to Scheduling
- Students Get Access to MUN World India's Huge Online Resource Base
- Emphasis on Encouraging the Spirit of Awareness and Expression
- Programme Ensures Comprehensive Preparation for MUN Conferences

Cost of Programme

The cost of the Enlighten MUN programme is on a per student basis and depends on batch size, customization required, duration and location of institution/independent workshop.
