Personality & Skill Set Development

Promoting Expression and Ideation

Developing Public Speaking Skills

The Utopian Parliament

# INDIATION - An Insight

## *An Indian Youth Empowerment Initiative*

*One day our nation is sure to fly. With these wings which at present dormant lie.  
And whether anyone else is there or not, we shall be there to see it off.....*

These words by Anansh Prasad, Founder and Managing Director of SkillSphere Education, succinctly impress upon the importance of **instilling a sense of national pride, integrity and awareness among the youth of our nation**. India is at a crossroads today, with many positives driving it towards becoming a superpower but some negatives pushing it back towards devastation in certain areas. **The future of India majorly lies in the hands of its youth** which must contribute towards its progress, development and advancement through various initiatives and nation building activities.

In order to ensure that young students are in a position to fulfil their duties towards the nation and realize their true potential, it is **imperative that they are sensitized to India's problems and shortcomings as well as its progress and bright aspects**. Additionally, they must develop the confidence and conviction in themselves to make a difference. They need to develop educated opinions on various issues and express themselves to make their voices heard. Apart from this, they also **need to develop essential skill sets such as team work, collaborative problem solving, decision making and analytical thinking** among various others, to become well rounded Indian citizens ready to take on the world!

Indiation is a unique programme which specifically focuses on the development of the **mentioned skill sets, confidence and national awareness among students while enlightening them about various facets of India in interactive, participative and enthralling ways**. It also gives young students an opportunity to step into the shoes of India's policy makers and participate in a **unique parliamentary format called 'The Utopian Parliament'** which has been developed by SkillSphere Education and forms a part of the programme. Indiation has been developed after years of research and is systematically structured with well-defined modules. This highly successful initiative **has helped over 15000 students across 18 Indian cities** discover the 'I' in India and continues to help more young Indians do so as well!

## Basic Programme Structure

Indiation is a **3 day programme\* (18 hours duration)** with additional interventions and has been designed by some of the most reputed public speakers, and curriculum developers in Indian education. The programme is specifically conducted for students of ages 11 to 13 years.

Generally conducted as a full day programme (6 hours per day) over 3 consecutive days, the programme is **divided into 8 well defined modules, each of which blend national awareness and sensitization with the development of a plethora of specific skill sets such as public speaking, opinion development and expression, team work among various others**.

All sessions involve substantial **direct student participation** and have been designed to involve a **perfect blend of theoretical, practical and experiential learning**.

*\*There is also a shorter variant of Indiation, which is a 2 day (12 hours duration) programme.*

# Curriculum Details

## Day 1 (6 hours)

### ➤ Session 1: The 'I' in India (2 hours)

In this session, participants are oriented towards the basic facets of India, including its diversity and origins in an interactive manner. Participants also break the ice by introducing themselves innovatively using various techniques taught to them.

### ➤ Session 2: The 2 Indias (Part 1) – India Shining (3 hours)

The session enlightens participants about India's numerous plus points such as its soft power, industries and technology. They are then taught the art of opinion development and appreciation followed by a poster paper presentation based on the knowledge that is imparted.

### ➤ Session 3: Mad Indian Ads (1 hour)

This session involves discussions about popular and unique Indian brands, products and personalities. It requires participants to conceptualize stage advertisements based on these and hones skills such as team work, lateral thinking, sales pitching and stage presence.

## Day 2 (6 hours)

### ➤ Session 1: The 2 Indias (Part 2) – India Hoping (2.5 hours)

This session delves into the various problems that plague India today. Some of these include illiteracy and poverty. Participants then look for solutions collaboratively by participating in case study sessions where they use logical problem solving models taught to them.

### ➤ Session 2: The Amazing Indian Race (2.5 hours)

This is one of the highlights of the Indiation programme. The Amazing Indian Race is a one of a kind treasure hunt type activity with different checkpoints. Each checkpoint has a unique worksheet or physical activity related to a particular aspect of India which needs to be solved or cleared by the participants (in teams). The different tasks develop various skills such as team work and lateral thinking. Participants explore various facets of India in a challenging way.

### ➤ Session 3: The Great Indian Quizengamot (1 hour)

Day 2 ends with a national quiz which tests retention, grasping power and national awareness. The quiz requires application of information provided in earlier sessions.

## Day 3 (6 hours)

### ➤ Session 1: The Indian Parliament (2 hours)

The final day is dedicated to furthering awareness about India's parliamentary structure among participants. This session enlightens them about the Indian Parliament, the Constitution and the Houses of Parliament among other aspects, in an interesting manner.

### ➤ Session 2: The Utopian Parliament (4 hours)

The culmination of Indiation takes place with the most innovative and special module which puts participants into the shoes of India's policy makers. The Utopian Parliament is a partisan free simulation of the parliamentary structure in which participants are divided into various government and opposition ministries which debate on a national issue based on their specific ministerial duties. A communiqué with solutions for the issue is drafted thereafter.

# Salient Features of Our Programme

- Fully certified programme with personalized performance reports for all participants
- Personalized focus on development of critical skills in every participant
- Development of public speaking skills, communication skills and power of expression
- Major emphasis on improving general and national awareness
- Effort to eliminate stage fright and improve confidence of every participant
- Systematically structured, extensively tested and extremely successful programme
- Programme conducted by well acclaimed, renowned and nationally aware educationists
- Major attention towards opinion development and argumentative abilities of participants
- Small batch sizes to ensure personalized attention to every participant

## Cost of Programme

The cost of the Indiation programme is on a per student basis and varies depending on batch sizes, schedule of programme, customization required and location of institution/venue.
